SESSION DESCRIPTION:

The special session on *Next Generation Computing* provides a platform for researchers, academicians, scientists and engineers across the world to share their novel ideas or research findings in the areas of leading edge technologies of next generation.

This special session is specially intended to cover leading technologies that will lead to the development of more complex and intelligent systems which are expected to solve a myriad of problems ranging from integrating artificial intelligence, cognitive computing, data, text, graph, and web mining etc. We hope this special session will be a catalyst for lot of innovation for the prosperity of society.

RECOMMENDED TOPICS:

Topics to be discussed in this special session include (but are not limited to) the following:

- Evolutionary Algorithms and its Applications
- Deep Learning and its Applications
- Big Data Analytics
- Feature Learning and Feature Engineering
- Machine Learning Algorithms
- Multimedia Data Mining
- Data, Text and Graph mining
- Social Media Mining
- Collaborative Filtering
- Crowd Sourcing
- Personalization
- Security and Privacy issues
- Data Stream Mining and Analysis
- Sensor Technology
- Natural Language Processing
- Optimization Techniques
- Nature Inspired Techniques
- Social Network Analysis
- Cloud Computing

SUBMISSION PROCEDURE:

Researchers and practitioners are invited to submit papers for this special theme session on **Next Generation Computing on or before 1st December, 2019**. All submissions must be original and may not be under review by another publication. INTERESTED AUTHORS SHOULD CONSULT THE CONFERENCE'S GUIDELINES FOR MANUSCRIPT SUBMISSIONS at http://icicc-conf.com/paper_submission.html. All submitted papers will be reviewed on a double-blind, peer review basis.

NOTE: While submitting paper in this special session, please specify **Next Generation Computing** at the top (above paper title) of the first page of your paper.
