

ICICC-2021
International Conference on Innovative Computing and
Communication
Organized by Shaheed Sukhdev College of Business Studies, New Delhi, India
On 20-21 Feb 2021.

***** **CALL FOR PAPERS** *****

SPECIAL SESSION ON

Recent Trends in Computing

SESSION ORGANIZERS:

1. Dr. Achyut Shankar
Assistant Professor
Department of Computer Science & Engineering,
Amity School of Engineering & Technology,
Amity University, Noida, Uttar Pradesh, India
Email: ashankar1@amity.edu

2. Dr. Pavika Sharma
Assistant Professor
Department of Electronics and Communication Engineering,
Amity School of Engineering & Technology,
Amity University, Noida, Uttar Pradesh, India
Email: psharma12@amity.edu

EDITORIAL BOARD: (Optional)

[Name, University or Organization, Country, e-mail]

SESSION DESCRIPTION:

Computer Science has a short but very appealing history as an academic discipline; it has drastically changed the society and its needs. It's now becoming the founding science of the information age and a driver force towards revolution of Information Technology. We are trying to build 21st century knowledge society, our infrastructure is vulnerable to new threats and they create new opportunities. We should have built micro/medium scale enterprises. Industrial sectors provide cyber security solution. This special session is basically focused on recent trends in computing covers the theme computer, information and cyber security and latest technology trends. Technology is critical for society; security is also critical to these technologies. We need to change the way to create coders if we want to build secure systems. There is a strong need of

intelligent based techniques for prevention of attacks. Mobile devices have a strong penetration in the internet world; different smart applications now become the top priority for the users that fulfills the technological demands.

RECOMMENDED TOPICS:

Topics to be discussed in this special session include (but are not limited to) the following:

Table of contents include, but are not limited to, the following scope:

- Big Data
- Computer, Information and Cyber Security
- Algorithms in Computer Security,
- Analysis of security algorithms,
- Big data security,
- Trends of Cryptography Techniques,
- Mathematical Modeling of malware propagation,
- Cloud security issues,
- Information Security Policies,
- Identity management and Authentication,
- Internet of Things,
- Cloud Computing,
- High Performance Computing,
- Applications of automata theory in computer science,
- Smart Cities,
- Knowledge Management
- Mobile Applications,
- Social Computing,
- e-Learning Tools,
- Virtual reality based learning,
- Mobile learning,
- e-Learning Organizational Issues

SUBMISSION PROCEDURE:

Researchers and practitioners are invited to submit papers for this special theme session on **[Recent Trends in Computing] on or before [15th December 2020]**. All submissions must be original and may not be under review by another publication. INTERESTED AUTHORS SHOULD CONSULT THE CONFERENCE'S GUIDELINES FOR MANUSCRIPT SUBMISSIONS at http://icicc-conf.com/paper_submission.html. All submitted papers will be reviewed on a double-blind, peer review basis.

NOTE: While submitting paper in this special session, please specify **[Recent Trends in Computing]** at the top (above paper title) of the first page of your paper.
