

ICICC-2021
International Conference on Innovative Computing and
Communication
Organized by Shaheed Sukhdev College of Business Studies, New Delhi, India
On 20-21 Feb 2021.

***** **CALL FOR PAPERS** *****

SPECIAL SESSION ON

Emerging Trends and Security Issues on Internet of Things (ETSIoT)

SESSION ORGANIZERS:

1. Dr. K.P. Sanal Kumar
Assistant Professor
P.G. Department of Computer Science
R.V. Government College, Chengalpattu
Tamil Nadu, India
Email: sanalprabha@yahoo.co.in

2. Dr. S. Anu H Nair
Assistant Professor
Department of Computer Science and Engineering
Annamalai University, Chidambaram
Tamil Nadu, India
Email: anu_jul@yahoo.co.in

3. Dr. Smita Nirkhi
Associate Professor
Department of Computer Science and Engineering
G.H. Rasoni Institute of Engineering and Technology
Nagpur, India
Email: smita811@gmail.com

4. Dr. B. Rajalingam
Assistant Professor
Department of Computer Science and Engineering
Priyadarshini College of Engineering and Technology
Nellore, Andhra Pradesh, India
Email: rajalingam35@gmail.com

EDITORIAL BOARD: (Optional)

[Name, University or Organization, Country, e-mail]

SESSION DESCRIPTION:

ETSIoT will be the most comprehensive special session focusing on the various aspects of Internet of Things. The Internet of Things (IoT) has become a central and exciting research area encompassing many fields in information and communication technology and adjacent domains. IoT systems involve interacting, heterogeneous, distributed, and intelligent things, both from the digital and physical worlds including the human in the loop. The goal of this special session is to bring together the researchers from academia and industry as well as practitioners to share ideas, problems and solutions relating to the multifaceted aspects of Internet of Things. Several IOT devices, sensors are used in order to collect data to manage assets and resources of the municipal body in an effective manner. Smart city technology allows officials associated with the civic bodies to transact in real time with the facilities of city infrastructure and the community who is leveraging the facility. Papers with new research results and new products or concepts are encouraged for submission.

RECOMMENDED TOPICS:

Topics to be discussed in this special session include (but are not limited to) the following:

Table of contents include, but are not limited to, the following scope:

- Machine-to-Machine Communication and IoT
- Modelling of IoT applications
- Fog and Edge support for IoT Applications
- Human Interaction with IoT
- IoT enabled Innovation and Entrepreneurship
- Robotic IoT Systems
- IoT Economics and Business Models
- Authentication and Authorization for IoT
- Cyber Attacks in IoT
- Security with QoS Optimization in IoT
- IoT Forensic Science
- Big Data and Information Integrity in IoT

SUBMISSION PROCEDURE:

Researchers and practitioners are invited to submit papers for this special theme session on **[Emerging Trends and Security Issues on Internet of Things (ETSIoT)]** *on or before* **[15th December 2020]**. All submissions must be original and may not be under review by another publication. INTERESTED AUTHORS SHOULD CONSULT THE CONFERENCE'S GUIDELINES FOR MANUSCRIPT SUBMISSIONS at http://icicc-conf.com/paper_submission.html. All submitted papers will be reviewed on a double-blind, peer review basis.

NOTE: While submitting paper in this special session, please specify **[Emerging Trends and Security Issues on Internet of Things (ETSIoT)]** at the top (above paper title) of the first page of your paper.
