

ICICC-2022
**5th International Conference on Innovative Computing and
Communication**

Organized by Shaheed Sukhdev College of Business Studies, New Delhi, India
On 19-20 February 2022.

******* CALL FOR PAPERS *******

SPECIAL SESSION ON
DATA SCIENCE AND MACHINE LEARNING

SESSION ORGANIZERS:

Dr. Piyush Kumar Pareek
East West College of Engineering, Bengaluru, India
piyushkumarpareek88@gmail.com

SESSION DESCRIPTION:

Both data science and machine learning are rooted in data science and generally fall under that category. They often intersect or are confused with each other, but there are a few key contrasts between the two. The major difference between machine learning and data mining is how they are used and applied in our everyday lives. Data mining can be used for a variety of purposes, including financial research, Investing, sales trends and marketing. Machine learning visible form of the principles of data mining, but can also make automatic correlations and learn from them to apply to new algorithms.

- Machine learning and statistics
- Machine learning tools and techniques
- Fielded applications
- Generalization as search
- Bayesian networks

RECOMMENDED TOPICS:

Topics to be discussed in this special session include (but are not limited to) the following:

Data Science and Machine Learning
Business Intelligence
Data Engineering and Architecture
Predictive Analytics

SUBMISSION PROCEDURE:

Researchers and practitioners are invited to submit papers for this special theme session on **[session name] on or before [15th October 2021]**. All submissions must be original and may not be under review by another publication. INTERESTED AUTHORS SHOULD CONSULT THE CONFERENCE'S GUIDELINES FOR MANUSCRIPT SUBMISSIONS at http://icicc-conf.com/paper_submission.html. All submitted papers will be reviewed on a double-blind, peer review basis.

NOTE: While submitting paper in this special session, please specify [**Session Name**] at the top (above paper title) of the first page of your paper.
