

**ICICC-2022**  
**5<sup>th</sup> International Conference on Innovative Computing and  
Communication**

Organized by Shaheed Sukhdev College of Business Studies, New Delhi, India  
On 19-20 February 2022.

**\*\*\*\*\* CALL FOR PAPERS \*\*\*\*\***

**SPECIAL SESSION ON**

[Smart Applications of Sensors and IoT]

**SESSION ORGANIZERS:**

[Dr. Padmalaya Nayak, Professor, CSE, GRIET, Hyderabad

Mail ID: [drpadmalaya2010@gmail.com](mailto:drpadmalaya2010@gmail.com)

Dr. A. Niranjana, Associate Professor, CSE, GRIET, Hyderabad

Mail ID: [a.niranjansharma@gmail.com](mailto:a.niranjansharma@gmail.com)]

**EDITORIAL BOARD:**

[Dr. Padmalaya Nayak, Professor, CSE, GRIET, Hyderabad

Mail ID: [drpadmalaya2010@gmail.com](mailto:drpadmalaya2010@gmail.com)

Dr. G.R Sakthidharan, Professor, CSE, GRIET, Hyderabad

Mail ID: [grsdharan@gmail.com](mailto:grsdharan@gmail.com)

Dr. Pinaki Chatterjee, Associate Professor, KITT, Bhubaneswar

Pinaki. [Sankar.chateerjee@gmail.com](mailto:Sankar.chateerjee@gmail.com)

Dr. Priyanka Kaushal, Associate Professor, Chandigarh Engineering College, Punjab

Mail ID- [ms.priyankakaushal@gmail.com](mailto:ms.priyankakaushal@gmail.com)]

**SESSION DESCRIPTION:**

The Internet of Things (IoT) describes the network of physical objects/ “things” that are embedded with sensors, software, and other technologies for the purpose of connecting and exchanging data with other devices and systems over the internet. These devices range from ordinary household objects to sophisticated industrial tools. As per the Gartner’s report, with more than 20 billion connected IoT devices today, expecting this number to grow to 22 billion by 2025. So, there is a requirement to study the nature of IoT networks and explore the new applications in this area. Moreover, Sensor plays the major role in IoT networks. So, the objective of this special session proposal is to provide a common platform where the researchers from Industry/ Institutes across the globe can share their ideas, implementations to bring a global change.

**RECOMMENDED TOPICS:**

Topics to be discussed in this special session include (but are not limited to) the following:

- Sensor Applications
- Protocols in WSN
- Network Security
- Data Mining in WSNs
- Applications of IoT
- Cloud-based IoT
- Block Chain Technology
- Smart Technology in IoT
- ML techniques in Smart Computing
